

### MC3+® Central Heating System CLEANER

MC3+ RAPIDE is a high concentrate chemical cleaner specially designed to remove central heating system sludge and debris, while protecting vulnerable system metals during cleaning.

MC3+ RAPIDE provides faster, stronger and easier dosing; allowing a 125 litre system to be dosed in just 20 seconds. Formulated to provide better sludge removal for the average-sized system AND cleans systems with up

The latest MC3+ RAPIDE chemical is the product of a considerable amount of industry knowledge and experience built up over a long number of years. It has been developed and tested within ADEY's own UKAS accredited laboratories here in the UK.

- High performance chemical cleaner
- · Removes sludge, debris and scale
- Restores heating efficiency of existing systems
- Treats 125 litres in 20 seconds
- For use in accordance with BS7593:2006
- Suitable for all heating systems and all water types
- Compatible with all metals including aluminium

# Physical and chemical properties

Appearance: Liquid Colour: Brown Odour: Slight

Solubility: Soluble in water

pH (concentrated solution): 7.0

Relative Density: 1.18 g/cm<sup>3</sup>

#### **Product uses**

to 15 radiators.

For the removal of system sludge, debris and scale from existing heating systems, restoring heating efficiency. Removes corrosion from all metals and alloys commonly found in heating systems including mild steel, copper, aluminium and their alloys. Compatible with all rubbers and other non-metallic components.

#### How to use

300ml of MC3+ RAPIDE treats up to 125 litres or 15 single panel radiators.

Introduce MC3+ RAPIDE to the system using the adaptor provided via the filling loop, radiator or via a MagnaClean® filter air vent.

Clean and flush the system as recommended in BS7593 using ADEY *MagnaCleanse*<sup>®</sup> and *MC3+ RAPIDE*. Following the cleanse, drain and flush thoroughly until the water runs clear. Refill the system and add the correct dosage of *MC1+* Protector for the optimum protection against the build-up of corrosion and limescale.

MC3+ RAPIDE should be circulated in the system for a minimum of 1 hour and up to 28 days.

### **Application**

MC3+ RAPIDE is suitable for all sealed and open vented central heating systems in accordance with BS7593. MC3+ RAPIDE is not suitable for use in single feed indirect "primatic" cylinders where potable water treatment is required.

### **Environmental**

ADEY is a carbon neutral company and cares about the environment. The company's award winning product innovations contribute significantly to reduced carbon emissions, energy and water usage.

MC3+ RAPIDE does not contain phosphates, EDTA or nitrate/nitrites which have negative environmental effects.

#### Quality

ISO 9001 & ISO 14001

## Packaging, handling and storage

Available in 300ml canister.

MC3+ RAPIDE is non-hazardous, but as for all domestic chemicals, avoid direct contact with the substance, keep out of reach of children and avoid contact with eyes and skin.

Warning: Pressurised container: May burst if heated. Protect from sunlight and do not expose to temperature exceeding 50°C. Do not pierce or burn, even after use. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep out of reach of children. Use only as directed.

Store in a cool, well ventilated area. Keep container tightly closed. Must only be kept in original packaging.
